✉ taha.ghadhab@enib.ucar.tn ☎ +216 54 347 150 in [linkedin.com/in/taha-ghadhab](https://www.linkedin.com/in/taha-ghadhab)

Industrial engineering student combining analytical rigor, a strong appetite for data, and a keen interest in production system optimization and Industry 4.0. I don't just fix problems — I eliminate them for good with innovative tools.

SKILLS

Industrial

- Planning & management (PIC, PDP, MRP, MS Project, ERP)
- Layout / Facility design
- Lean & Continuous Improvement (DMAIC, PDCA, VSM, Ishikawa)
- Process management

Technical

- MATLAB
- Power BI
- SQL / Supabase / React / Python
- CATIA V5

Soft Skills

- Leadership & team management
- Multicultural teamwork
- Public speaking

LANGUAGES

Arabic: Native language

French: Fluent

English: Fluent

INTERESTS

Industry 4.0, Applied AI, Entrepreneurship, Strength training & sport, Student leadership, Business & strategy

EDUCATION

Tunisia Polytechnic School

Master's in Intelligent Complex Systems (double degree)
2026 – 2027

National Engineering School of Bizerte

National Engineering Degree – Industrial Engineering
2024 – Present | Bizerte

Faculty of Sciences of Tunis

Preparatory cycle – Mathematics & Physics
2021 – 2024

Baccalaureate, Mathematics – Honors

2021

PROFESSIONAL EXPERIENCE

Methods Engineer – SAFRAN

06/01/2026 – 07/24/2026 | Dhari

- Built an intelligent software tool (local OCR) to actively detect and correct major non-conformities in documents according to the quality standard.
- Built a platform to track the compliance of tightening tools in order to meet aerospace safety standard requirements.

Consulting Intern – AFC, Arab Financial Consultants

08/2025 – 09/2025 | Les Berges du Lac

- Immersion in a financial consulting environment.
- Developed analytical rigor and understanding of financial systems.

Assistant Engineer – SMIP, Oil Field Maintenance and Installation Company

06/2025 – 07/2025 | Les Berges du Lac, Tunisia

- Techno-economic study for the acquisition of a coiled-tubing unit.
- Immersion in HSE challenges and oil industry safety standards.

TECHNICAL & INDUSTRIAL PROJECTS

PharmacoWork, Multi-tenant SaaS — internal workspace for community pharmacies (mobile-first)
2026 – Present

- Designed and built a complete 11-module platform (prescriptions, orders, stock shortages, equipment rentals, quality, tasks, scheduling, leave/time-tracking, chat, internal news, directory), replacing sticky notes, logbooks and WhatsApp groups.
- Strict multi-tenant architecture (per-pharmacy data isolation), passwordless authentication (magic link + mandatory TOTP), patient identities encrypted at rest with searchable encryption (HMAC name index), configurable and auditable data purging, and full traceability of prescription access.
- Stack: NestJS / Prisma / PostgreSQL monorepo + Next.js / React, prescription OCR via Mistral, push notifications, S3-compatible storage, Sentry & PostHog observability.
- Pilot/pre-production on Railway (~80 screens, ~180 API routes, 41 data models, 63 test suites e2e/unit running in CI); security audit completed with a 3-wave remediation plan.

Machine Layout Optimization App, Decision support for shop floor layout

2025 – 2026

- King's method (Rank Order Clustering) for production cells.
- Chain-based optimization algorithms, industrial indicators (traffic, connectivity, optimality ratio).

Academic Performance Dashboard – ENIB, Fullstack web monitoring application

2025 – 2026

- 42 performance-tracking KPIs, automated alert system.
- Interactive visualizations, student satisfaction tracking.

EXTRACURRICULAR ACTIVITIES

President, AI INNOVATORS ENIB club

2025 – 2026

- Strategic leadership of the club: cross-disciplinary AI & Data projects.
- Event organization.

HR Manager, AI INNOVATORS ENIB club

2024 – 2025

- Managed internal recruitment.
- Member onboarding.
